

Site Supervisor - General Contracting

Company: Creek Ocean Construction

Location: Halifax Regional Municipality (HRM), NS

Job Type: Full-Time, Permanent

About Us

Creek Ocean Construction is a full-service general contracting firm serving both commercial and residential sectors in HRM. We are known for our quality workmanship, reliable project execution, and collaborative approach with clients and trades.

Position Summary

We are seeking an experienced and proactive Site Supervisor to oversee construction sites from start to finish. The ideal candidate has a background in commercial construction, excellent communication skills, and the ability to manage both in-house crews and subtrades to ensure safety, quality, and timelines are met.

Key Responsibilities

- Supervise all on-site construction activities, ensuring adherence to project plans, schedules, and safety regulations.
- Coordinate and schedule trades, deliveries, and inspections.
- Conduct daily site walkthroughs and maintain detailed site logs.
- Monitor quality control and ensure compliance with building codes and company standards.
- Liaise with project managers, clients, architects, and engineers as needed.
- Address site challenges and resolve issues proactively to avoid delays.
- Enforce health and safety protocols and maintain a clean, organized site.

Qualifications

- Minimum 5 years of site supervision experience in general contracting, preferably with commercial projects.
- Strong understanding of construction processes, building codes, and trade coordination.
- Excellent leadership, organizational, and problem-solving skills.
- Ability to read and interpret blueprints and construction documents.
- Effective verbal and written communication skills.
- Must be able to work flexible hours, including occasional travel within HRM.
